Carson Introduces the NEW SC-411 *Elite Force* Siren Series

Indianapolis, IN – Carson Sirens is proud to introduce the new **SC-411 *Elite Force*** siren series featuring the new **QuickClone™** duplication technology making it an easy and ideal application for fleets. Select between the remote dual tone model, requiring 2 speakers, or the 100/200 watt single tone remote unit. Don't be fooled, this series is small in size, but large on functionality. Rugged and reliable is the reputation that Carson Sirens has come to be known for and this series does not disappoint.

The **SC-411 *Elite Force*** Series was developed for smaller spaces but gives you the same features as a full console unit. Both of these new units come with premium style and design with superior capabilities. Introducing the new **QuickClone™** duplicating technology which makes programming the settings transferable from one unit to another without the need of a computer, making this ideal for fleets installations.

Highlighting the **SC-411 *Elite Force*** Series is the **SC-411RD-10 14** remote dual tone siren. This siren gives you dual tone, full emergency warning system control with superior style and design. Face programmability along with selectable siren tone options. The rugged rubberized splash resistant face protects internal circuitry from liquids. The **SC-411** series has incorporated all emergency lighting and arrow stick control, including gun lock timer as well as video camera system control. A rotary switch gives you 6 positions to make your sound choice. This unit will give you maximum options and controls with minimal need for space from the console or under the dash by the adjustable tilt universal bracket included. Control head has dimming button so the user can tailor the brightness to his preference.

SC-411RD-10 14 Dual Tone (200 watt) shown above. The SC-411RS-10 14 Single Tone (100/200 watt) version is also available.

AVAILABLE MID MARCH, 2012

This new series has been a culmination of a multi-year initiative to present another superior series of sirens to the law enforcement industry. Built "Tough to the Core", this new series exceeds the same high standards for quality and performance that you have come to expect and know from Carson Sirens. When it comes to performance, ruggedness and reliability Carson Sirens are always the sound performer.
